

HASNAIN JAVED

DATA ANALYST | BUSINESS INTELLIGENCE | POWER BI DEVELOPER | SQL | MICROSOFT FABRIC

Karachi, Pakistan | +92 342 9699737 | hasnainjaved0123@gmail.com | [LinkedIn](#) | [GitHub](#) | [Portfolio](#)

PROFESSIONAL SUMMARY

Data Analyst and Business Intelligence professional with 5+ years of experience delivering Power BI/SQL analytics, KPI frameworks, automated reporting, data-quality controls, and process improvements across technology, operations, finance, and healthcare. Hands-on with Power BI, DAX, SQL, Python, Power Query, and Microsoft Fabric (OneLake, Lakehouse, Warehouse, Data Factory, PySpark), including dimensional modeling, ETL/ELT, semantic models, and stakeholder requirements. **Impact: +25% data accuracy, +20% payroll accuracy, +30% engagement, +15% conversion.**

TECHNICAL SKILLS

BI & Analytics: Power BI Desktop/Service, DAX, Power Query (M), Semantic Models, RLS, Looker Studio, KPI Reporting, Dashboard Development, Data Visualization

Data & Engineering: SQL Server, MySQL, PostgreSQL, Python (pandas, NumPy), PySpark, Microsoft Fabric, OneLake, Lakehouse, Warehouse, Data Factory, Delta Lake, ETL/ELT, Star/Snowflake Schema, Dimensional Modeling

Automation & Quality: Advanced Excel, Google Sheets, Power Automate, Google Apps Script, VBA, Incremental Loading, SCD Type 2, Data Validation, Data Quality, Audit Logging

Business & Delivery: Requirements Analysis, Process Mapping, Stakeholder Management, Agile/Scrum, Jira, Confluence, User Stories, Acceptance Criteria, Git/GitHub, Cross-functional Communication

PROFESSIONAL EXPERIENCE

Business Process Analyst | Tekrevol | Jan 2025 - Aug 2026 | Karachi, Pakistan

- Led analytics initiatives across a 5-member team and designed KPI frameworks for Marketing, Sales, Production, and Operations, strengthening performance visibility and management decision-making.
- Built Power BI and Looker Studio dashboards integrating Google Analytics, Microsoft Clarity, and internal sources; initiatives contributed to 30% higher engagement, 15% higher conversion, and 20% lower bounce rate.
- Standardized KPI definitions, reporting logic, source mappings, and validation checks across cross-functional dashboards, improving consistency and trust in recurring management reporting.
- Automated recurring reporting and data preparation with Power Query, Google Sheets, Google Apps Script, and Power Automate, reducing manual touchpoints and improving reporting reliability.
- Analyzed AS-IS process bottlenecks and translated business requirements into user stories, acceptance criteria, and measurable TO-BE improvements while coordinating with cross-functional stakeholders.

Data Analyst | The Pipeline Group (1840 & Company Client) | Apr 2023 - Dec 2024 | Remote - USA

- Analyzed and validated 10,000+ records daily using SQL, Excel, Google Sheets, and Power BI, improving overall data accuracy by 25%.
- Delivered daily attendance, bonus KPI, dialing, payroll, workforce, and resource-allocation reporting, translating operational data into decision-ready insights for operations and finance teams.
- Managed validation for 1,000+ workforce records and implemented data-quality controls that improved payroll accuracy by 20%.
- Reconciled multi-source operational and finance data, investigated reporting discrepancies, and strengthened recurring reporting controls for payroll, incentives, and resource planning.

Live Operations Associate | MEDZnMORE | Apr 2021 - Mar 2023 | Islamabad, Pakistan

- Monitored real-time performance for 500+ daily B2B/B2C orders, supporting 95% fulfillment and 95% on-time shipping across healthcare operations.
- Built operational dashboards tracking orders, GMV, returns, SLA/service performance, and fulfillment KPIs; process controls reduced order-processing errors by 10%.
- Produced Intellicon performance reports and competitive pharmacy-market intelligence across Karachi, Lahore, and Islamabad, converting operational data into actionable trends for business teams.
- Supported SOP and process improvements by identifying service bottlenecks, monitoring SLA adherence, and coordinating data-driven follow-up across operations teams.

SELECTED PROJECTS

Enterprise Sales & Inventory Intelligence Platform - Microsoft Fabric | OneLake | Lakehouse | Data Factory | PySpark | Delta Lake | SQL | Power BI: Built an end-to-end medallion data platform from Data Factory ingestion to Bronze/Silver/Gold Delta layers, Warehouse/SQL endpoint, semantic model, and Power BI; implemented SCD Type 2, surrogate keys, watermark-based incremental loads, data-quality/quarantine rules, audit logging, reconciliation, and monitoring.

Customer Growth & Revenue Analytics - Python | SQL | Power BI: Built Customer 360 and ecommerce analytics on multi-table Olist data with dimensional modeling, cohort retention, RFM segmentation, revenue/customer KPIs, validation controls, and Power BI reporting.

Corporate Finance & FP&A Command Center - Power BI | SQL Server | DAX | Power Query: Developed finance analytics for P&L, balance sheet, cash flow, working capital, budget vs. actuals, AR/AP aging, scenario forecasting, dimensional modeling, and reusable measures.

Pakistan ATM Performance Dashboard - Power BI | DAX: Created banking analytics for ATM transactions, revenue, utilization, transaction bands, operational KPIs, and performance trends with interactive drill-down reporting.

EDUCATION & CERTIFICATIONS

BS Software Engineering - Air University Islamabad

Certifications: Google Data Analytics Professional Certificate (2026) | IBM Data Analyst Professional Certificate (2024) | Excel Skills for Business - Macquarie University (2024) | Power BI for Financial Data Analysis (2023)

Professional Development: Microsoft Fabric Data Engineer Associate (DP-700) - In Progress
